

Key Registration Statistics April 2024

1. How many people are on the register?

As of 1 April 2024, there were 176,562 unique individuals on the register.

Some people need to register on more than one part of the Register; this brings the total number of registrations to 242,910.

Number of individuals on each register part

This chart shows how the number of unique individuals has changed. Between April 2020 and March 2021, in response to the pandemic, we did not remove people from the register for non-payment of fees. In April 2021, we removed people who had not paid their fees because they were no longer working in the sector. This explains the fluctuation over this period.

2. How many people on the register have the relevant qualifications?

126,866 (52.2%) of registrations have the relevant qualifications.

People who are on more than one part of the register need to do the qualification for each part (although some parts have the same qualification requirement, e.g., Housing Support Services and Care at Home Services).

3. How many applications are we receiving?

We projected that we would receive applications from 37,085 individuals in the 2023/24 financial year.

By the end of March, we were projected to receive applications from 37,085 individuals, however we have actually received applications from 48,189 individuals.

4. How long do we take to register an application from date of receipt?
